Learn about our offerings from our core brands that provide uptime and security your customers require today and in the future.

Avocent® | Geist™ | Liebert®

Featured Solutions

Vertiv offers a comprehensive list of critical infrastructure technologies to ensure a smooth selection, procurement and deployment process for our partners serving the healthcare market.

Racks and Enclosures

Scalable, modular solutions to support and protect your critical IT and facilities.

Vertiv™ VR Rack

Easy to install and configure with tool-less components that allow for quick installation, configuration and service.

Power

Ensure your digital infrastructure runs continuously with intelligent power solutions that enable you to grow as you go.

Vertiv™ Liebert® GXT5 UPS

500 to 3000VA 120V.

The Vertiv Liebert GXT5 UPS is an online double conversion UPS solution which offers premium power outage protection and continuous power conditioning in a compact and flexible rack/tower design.

Vertiv™ Geist™ rPDUs

Basic, Monitored and Switched rPDUs.

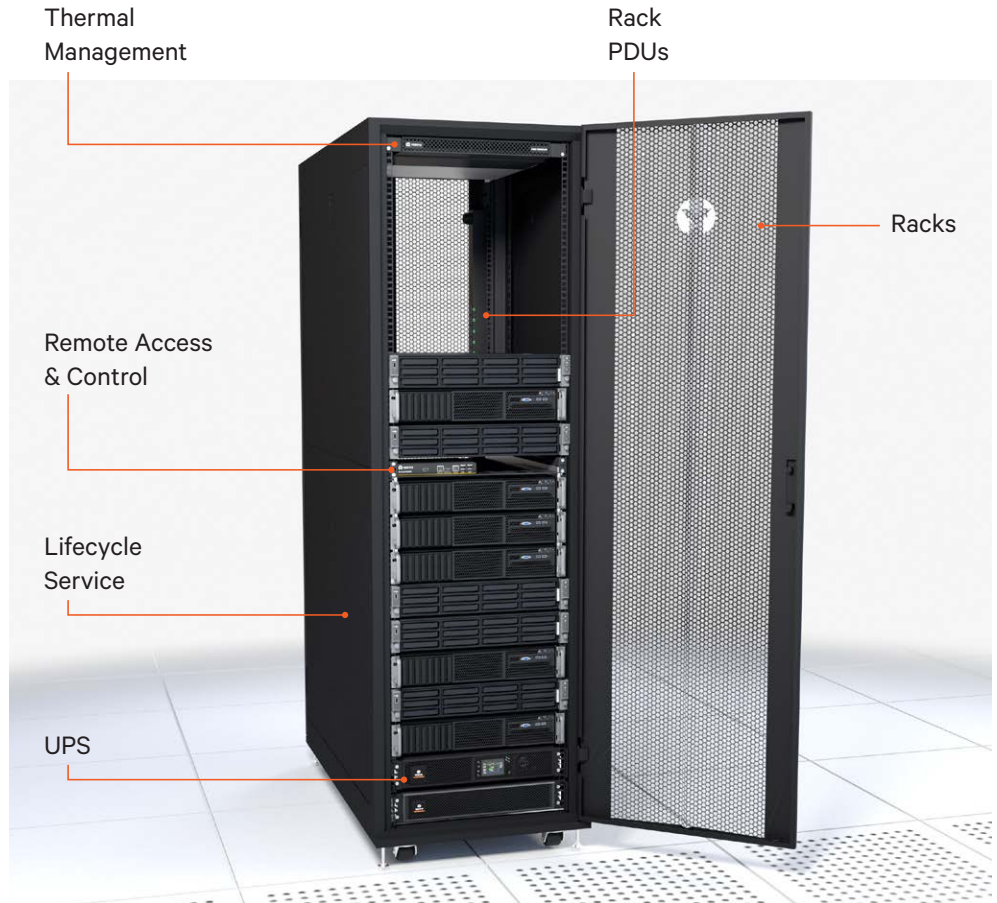

Reliable, intelligent power distribution for your critical equipment today, and in the future.

Thermal Management

Efficient and reliable heat management and humidity control solutions geared to your specific size, location and goals.

Vertiv™ Geist™ SwitchAir™

Prevent failure by channeling cool air from the front of the rack to the air intakes regardless of where the equipment is mounted

Access & Control

Access and protect your IT systems with infrastructure management solutions that increase security and efficiency.

Avocent® Cybex™ Secure KVM

Switch safely and securely between computers operating at different classifications levels.
