

Did you know? If you own any of these Oberon products:

Wi-Tile™ 

1046 | 1047 | 1052 | 1076 | 1077

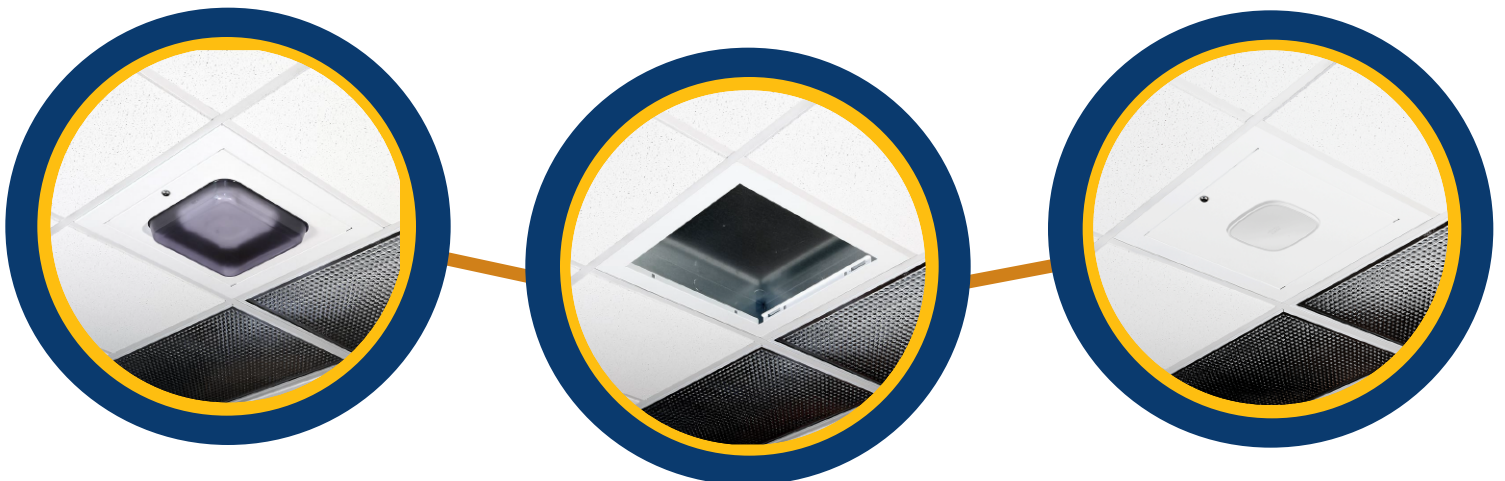

In-Plane™ 

1040 | 1042 | 1043 | 1044

and are planning a new AP migration or upgrade, you can use our

RETROFIT DOORS & TRIMS

with your enclosure's existing back-box!

MONEY

Increase the value of your enclosure investment by purchasing only the retrofit door or trim.

TIME

From solution selection to implementation, shorten every step.

LABOR

Replacing the enclosure door takes only a few minutes.

WASTE

The back-box is not removed during AP migrations.

PICK A DOOR, ANY DOOR

When planning a change to new wireless equipment and antennas, simply go to the Solution Finder at oberonwireless.com. Select your new AP and set the Series to the Retrofit Doors or Trims category for your existing Oberon enclosure model to see all compatible AP-specific trims, doors, or domes.
