Telehealth Line Card

VERTIV™   **Accu-Tech®**

Telehealth has gone into overdrive due to the global pandemic and the removal of previous barriers like strict regulations, reimbursement challenges, and technology limitations. Healthcare systems that can rapidly ramp-up or expand telehealth services as part of their care delivery model stand to reap many benefits like efficient post-op follow-up, lower hospital readmission rates, better medication adherence and more positive care outcomes. Realizing these benefits starts with assessing and addressing the healthcare IT infrastructure. As you add additional servers, network gear, and telecom equipment to support the telehealth growth, consider the impact on your power and cooling infrastructure. With Vertiv solutions, you can build resiliency to minimize patient care disruption, modernize equipment in support of next-generation capabilities, and leverage edge computing in order to give patients the telehealth services they expect and deserve.

Power Management
Ensure your digital infrastructure runs continuously with intelligent power solutions that enable you to grow as you go.

Vertiv™ Desktop 400-600VA UPS

Liebert® PST5 350-850VA Offline UPS

Liebert® PSA5 500-1500 VA Line-Interactive UPS

Liebert® PSI5 750-5,000 VA AVR Line-Interactive UPS

Liebert® PSI5 1500-3000 VA Lithium-Ion Line-Interactive UPS

Vertiv™ Liebert® GXT5 500-10,000 VA Online Double Conversion UPS

Liebert® APS 5kVA - 20kVA Modular UPS

Liebert® ITA2 3PH 10kVA, 208V UPS

Liebert® EXS 3PH 10kVA, 208V UPS

Power Distribution
Maximize uptime with real-time power usage and environmental monitoring, remote switching and alarming.

Vertiv™ Geist™ Basic Rack PDU

Vertiv™ Geist™ Metered Rack PDU

Vertiv™ Geist™ Monitored Rack PDU

Vertiv™ Geist™ Switched Rack PDU

Vertiv™ Geist™ Universal Power Distribution Unit

Vertiv™ Geist™ Environmental Sensors

Telehealth Line Card

VERTIV Accu-Tech

❄ Thermal Management
Ensure efficient and reliable heat management and humidity control geared to your specific size, location and goals.

Rack/Small Room

Vertiv™ Geist™ SwitchAir™ Airflow Management Solution

Vertiv™ VRC Rack Cooling System, 3500 Watts

Liebert® Mini-Mate Ceiling-Mounted Cooling System, 3.5-28 kW

Liebert® DataMate Cooling System, 5-10.5 kW

Liebert® CRV In Row Cooling System, 19-40kW

Vertiv™ Environet™ Alert

Vertiv™ Wireless Sensor Network

Vertiv™ Geist™ Environmental Monitors

Vertiv™ Geist™ Temperature, Humidity, Dew Point Sensor

Liebert® Point Leak Detection Sensors and Cable

📈 IT Management
Access and protect your IT systems and network with infrastructure management solutions that increase security and efficiency.

Vertiv™ Cybex™ SCM100 Series Secure Desktop Matrix

Cybex™ SC800/900 Series Secure Desktop KVM Switches

Vertiv™ Avocent® MergePoint Unity™ Digital KVM Switches

Vertiv™ Avocent® ACS Console Server

Vertiv™ Avocent® DSView™ Management Software

Vertiv™ Avocent® LongView™ KVM Extender

Vertiv™ Avocent® Matrix High Performance KVM

Vertiv™ Avocent® SwitchView™ Desktop KVM

Telehealth Line Card

VERTIV   *Accu-Tech*

Racks and Enclosures
Support and protect your critical IT and facilities with scalable, modular equipment storage solutions.

Vertiv™ VR Rack

Vertiv™ SmartCabinet™

Vertiv™ SmartAisle™

## Micro and Edge Modular Solutions
Deploy an all-in-one modular data center quickly for powerful computing capacity in a small physical footprint.

Vertiv™ VRC-S

Vertiv™ SmartRow™

Vertiv™ SmartMod™

DC Power for Edge/5G Deployment
Increase power system density for ensured continuity as you scale distributed assets to meet growing demand.

Vertiv™ XTE 801 Series Network Edge Enclosure

NetSure™ DC Power Solutions

NetSure™ DC Power System for Wireless Access

NetSure™ ITC DC Power Rack Solutions

NetSure™ DC Power Distribution Panel
